

Ho-Ho-Ho !

Enjoy these simple shapes at Christmas. Use them for ornaments or gift tags. Try cutting out two pieces of felt and a third smaller contrasting piece to stitch on top; sandwich a ribbon between the pieces and stitch around the edges. Lightly stuff them for a little body. **OR** try zig-zagging scraps every which way onto

fabric, then cut these shapes out of the stitched scraps and also a backing fabric. Cut a piece of thick felt out of the smaller, inner shape and sandwich it and a loop of ribbon between the two fabrics, wrong sides facing. Stitch around the outside edge of the ornament leaving an unfinished edge, trim any threads or uneven edges.
