

Christmas Robin

Use this happy little
Christmas robin template any way you like.

He comes in handy for all sorts of Christmas projects - cut him out of clay, felt, or card stock. He has a nice big breast to add a swash of red in any shape you like.

This one is about three inches wide, scale him up or down as needed. The robins here in the UK are small, half the size or less than those in the US.

Happy Christmas!
